COPYRIGHT AGREEMENT AND ACKNOWLEDGEMENT OF AUTHORSHIP FORM

Manuscript Title:

_____

_____

1. COPYRIGHT AGREEMENT

The authors retain the copyright to their manuscript and all original content therein.

By signing this agreement, the authors grant the Turkish Journal of Clinical Research (TJOCR) and its publisher a non-exclusive, worldwide, royalty-free license to publish, reproduce, distribute, display, disseminate, and archive the manuscript in electronic and other publication formats.

The authors grant the journal the right of first publication and authorize the journal to register Digital Object Identifiers (DOIs), deposit article metadata, and include the published work in indexing databases, institutional repositories, and digital preservation services.

This agreement does not constitute a transfer or assignment of copyright ownership to the journal or its publisher. The authors retain the right to distribute, archive, and reuse their work, subject to applicable third-party rights.

2. OPEN ACCESS AND CREATIVE COMMONS LICENSE

The authors agree that, upon publication, their article will be made freely and immediately accessible under the Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International (CC BY-NC-ND 4.0) License.

- Attribution (BY): Users must give appropriate credit to the authors, acknowledge the publication source, provide a link to the license, and indicate whether changes were made, where applicable.
- NonCommercial (NC): Users may copy and redistribute the published work for non-commercial purposes.
- NoDerivatives (ND): Adapted or modified versions may not be shared under the terms of this license.

Users may copy and redistribute the unmodified published article in any medium or format for non-commercial purposes, provided that the license conditions are respected. Commercial reuse or sharing adapted versions requires separate permission from the copyright holder unless otherwise permitted by law.

The authors acknowledge that the Creative Commons license granted upon publication is irrevocable in accordance with its terms.

3. ORIGINALITY AND PUBLICATION DECLARATION

The authors declare and confirm that:

1. The manuscript is original and has been prepared in accordance with accepted standards of scientific research and publication ethics.
2. The manuscript has not been previously published and is not under consideration by another journal, except for prior dissemination explicitly permitted under the journal's policies.
3. The data and findings have not been fabricated, falsified, or inappropriately manipulated.
4. All sources are properly cited, and the manuscript does not contain plagiarism or unauthorized use of copyrighted material.
5. Third-party material has been used with appropriate permission or another valid legal basis, and any restrictions have been disclosed.
6. Relevant ethical approvals, informed consent requirements, conflicts of interest, and funding sources have been appropriately addressed and disclosed.

4. ACKNOWLEDGEMENT OF AUTHORSHIP

All authors confirm that they meet the four authorship criteria established by the International Committee of Medical Journal Editors (ICMJE):

1. Substantial contributions to the conception or design of the work; or acquisition, analysis, or interpretation of data for the work.
2. Drafting the work or reviewing it critically for important intellectual content.
3. Final approval of the version to be published.
4. Agreement to be accountable for all aspects of the work and to ensure that questions regarding accuracy or integrity are appropriately investigated and resolved.

All authors further confirm that they have reviewed and approved the manuscript and authorship order; that all eligible authors are included; that other contributors are appropriately acknowledged, where applicable; and that they will cooperate in resolving questions concerning the integrity of the work.

5. AUTHOR CONTRIBUTIONS

The authors confirm that their individual contributions have been accurately reported in the manuscript or submission system. Any changes to the author list or author order after submission must be justified and approved in accordance with the journal's authorship policy.

6. PUBLICATION RIGHTS AND EDITORIAL RESPONSIBILITIES

The authors authorize TJOCR to perform necessary editorial, linguistic, typographical, and formatting corrections without altering the scientific meaning or integrity of the manuscript. Substantive scientific changes require appropriate author approval.

The journal may prepare PDF, HTML, XML, and other publication formats and deposit the article and its metadata in scholarly indexing and preservation services in accordance with this agreement.

If the manuscript is rejected or withdrawn before publication, the publication rights granted to the journal under this agreement shall terminate, without affecting independently accrued rights or obligations. Upon publication, the Creative Commons license applies in accordance with its terms.

7. AUTHOR DECLARATION AND SIGNATURES

By signing below, each author confirms that they have read, understood, and accepted this agreement. Copyright remains with the authors, and the journal receives only the non-exclusive publication rights described above.
